

# Alaska Monthly Fire Potential Outlook

- Forecast:
  - Expect normal conditions for April.
  - There is potential for above normal activity in May and June.
- Factors:
  - Alaska is just beginning to enter its fire season.
  - A moderate-strength El Nino is expected to continue to bring warm temperatures and slightly drier than normal conditions to Alaska this spring.
  - Dry fuel and soil conditions from last fall combined with a dry winter across much of the state: the exception is South Central coast.
